

Do NOT weaken the no call list. The businesses that call my home are nothing but a source of irritation and I WILL NOT give them my business. It is an invasion of my private time at home. I work third shift, I sleep during the day. I need to keep my phone on for emergencies. My friends and family know that I sleep during the day, they wait for me to call them. The telemarketers don't really care that I need to sleep during the day. Would you want a nurse caring for you, or your loved ones, that hasn't had enough sleep? I didn't think so. I have been awoken more than I can count. Perhaps these telemarketers should leave their home phone numbers with the people they disturb, so that we can disturb them. When I am in the market for products/services, I'll make the phone call to the business of my choice. It's bad enough having junk mail come to my home, I don't need junk phone calls also.
